ABOUT THIS ISSUE

Volume 1, Issue 1 brings together research on sustainable agriculture, climate and environmental security, water-quality biosensing, library automation, e-learning analytics, and data-intensive computing. The issue also encompasses biofuels, cloud-enabled machine learning, financial technology, cybersecurity, and organizational applications of emerging technologies. Collectively, these contributions demonstrate how education, environmental science, information systems, and applied technology can support resilient institutions, sustainable resource use, and evidence-informed development across diverse contexts.

ABOUT THE JOURNAL

JKLST is a peer-reviewed, open-access journal publishing original research, reviews, case reports, short communications, and other scholarly contributions across knowledge, learning, science, and technology.
