ABOUT THIS ISSUE

Volume 4, Issue 2 connects applied research in AI-supported language learning, vocational EFL motivation, generative-AI data engineering, fair software systems, predictive quality assurance, digital twins, translation competence, federated data quality, policy-aware delivery, crisis customer service, 3D bioprinting, digital marketing, Business English, e-commerce, and tourism development. Together, these studies emphasize implementation: translating technical, educational, biomedical, and organizational ideas into systems and practices that can be evaluated for effectiveness, equity, reliability, and real-world value.

ABOUT THE JOURNAL

JKLST is a peer-reviewed, open-access journal publishing original research, reviews, case reports, short communications, and other scholarly contributions across knowledge, learning, science, and technology.
