ABOUT THIS ISSUE

Volume 3, Issue 2 assembles interdisciplinary work on artificial intelligence in real-estate valuation and industrial transformation, organizational change aligned with Vision 2030, governance and employee satisfaction, language education, translation, bilingual development, machine-learning applications in health and environmental assessment, and business strategy. The issue connects technological innovation with educational, institutional, and social practice. Collectively, the studies emphasize responsible adoption, critical and communicative capability, evidence-based management, and locally relevant applications as foundations for resilient organizations and more sustainable development pathways.

ABOUT THE JOURNAL

JKLST is a peer-reviewed, open-access journal publishing original research, reviews, case reports, short communications, and other scholarly contributions across knowledge, learning, science, and technology.
